Observer Notes：
Observer Notes：
Qualifiers for species abundance will vary
depending on observer experience．
ew years

Rare，found once or twice in a season．
Uncommon，not certain to be found．
Common，often found．
Abundant，almost always found．
Relative Species Abundance

$$
\begin{array}{ll}
\text { SP: } & \text { March 1st to May 31st } \\
\text { S: } & \text { June 1st to August 15th } \\
\text { F: } & \text { August 16th to November 30th } \\
\text { W: } & \text { December 1st to March 15th }
\end{array}
$$

## Calendar of Seasons

 the seasons and how abundant（or how easy tofind）these birds may be． know what birds to expect on the reserve during checklist provides observers an opportunity to reserve during portions of the year．This Over 100 species of birds can be found on the
