ON THE COVER:
Spring is coming! And it’s time to get outdoors.
Join Audubon for upcoming programs including Maple Madness, BirdFest Weekend, and Summer Camps!
Register online at aswp.org.
This Audubon View

Those of you who are familiar with Audubon history know that we held our very first meeting at the Schenley Hotel (now the William Pitt Union at the University of Pittsburgh) way back in April of 1916.

As we approach our 100 year anniversary, we’re beginning a three-year project to look back and celebrate all we’ve accomplished—while making plans for our next 100 years. As a part of that process, we are setting a series of goals to achieve by our centennial. We’re calling it “Audubon’s 100 by 100.”

One of these goals—and the one I’m particularly excited about—is ASWP becoming 100% carbon neutral by our 100th year. Climate change is a serious issue and while much has been written and said about it, we want to do more than just talk. ASWP will demonstrate what can be done to eliminate our carbon footprint—through a series of energy and operating efficiencies, management of our forests (and possibly acquisition) for carbon sequestration, and purchase of high-quality offsets.

We’ll continue to develop our other 100 by 100 initiatives, and announce them in future issues of the Bulletin. But I know that there are some opportunities we have not considered. Over the next few months, we will be sending you—the extended members of our Audubon Family—a series of surveys and questionnaires to help us create our goals. I hope that you will take the time to respond.

I look forward to learning from you how Audubon should close out its first 100 years—and the goals we should set for our next.

Jim Bonner
ASWP Executive Director

A Friends of Audubon Membership Makes a Great Gift

Audubon Society of Western Pennsylvania (ASWP) is a nonprofit organization supported in large part through membership dues.

Membership Benefits
• 10% Discount on Nature Store Purchases and Bird Seed
• Subscription to Bulletin Newsletter
• Library and Teacher Resource Center Lending Privileges
• Tuition Discounts and Advance Notice on Education Programs
• Invitations to Nature Store Open House and Special Events
• 100% Good Feeling for Supporting Environment Education

Join or renew your membership at aswp.org

- New or Renewal Membership
- Gift Membership

Individual $35  Household $50  Naturalist $100  Ecologist $250  Conservationist $500  Steward $1000  Club Level $100

Your Name ___________________________________________ Phone _______________________
Email ___________________________________________ Employer (for matching gifts) ______________
Address ___________________________________________ City ___________________________ State ______ Zip ______

*If this is a Gift Membership, please complete the above section and the following:

Recipient’s Name __________________________________ Address __________________________________ City ___________________________ State ______ Zip ______

NOTE: Gift Memberships will be sent directly to the recipient

How to list your recognition on the recipient note:

Payment by:  Enclosed Check  Credit Card (please complete following): Credit Card No.: ____________________ Exp. ______________

Mail with payment to: ASWP/Membership  614 Dorseyville Road  Pittsburgh PA 15238

SNOWY CHRISTMAS BIRD COUNT YIELDS SURPRISING FINDS

Over 130 participants logged a cumulative total of 270 hours tallying birds in the Pittsburgh Christmas Bird Count on December 19th, 2012. The Pittsburgh CBC circle is centered on Shaler Township and includes the City of Pittsburgh, McCandless Township, Penn Hills, and the areas in-between.

When compared to last year’s unseasonably mild temperatures, this year’s weather was a bit more typical. Temperatures ranged from 28 to 33 degrees and snow was falling, fast. Although an inch of snow was forecasted, birders were faced with 5 to 8 inches of snow that fell during the morning and early afternoon hours.

With snow falling heavy at times, birders found conditions to be challenging. Despite difficult driving conditions and binoculars clogging with snow, participants found a remarkable diversity of birds. A total of 80 species were found on count day within the circle.

In fact, the total species count far exceeded the 10-year average of 68 species. The high species count came, in part, from improved communications prior to the count. Although the internet has enabled birders to quickly and effectively report birds for a number of years, it has not been widely used to coordinate birders for the Pittsburgh CBC.

Examples of interesting finds include a Rufous Hummingbird which was banded in early December on Mount Washington and a Lesser Black-backed Gull at the Point in downtown Pittsburgh. Both birds were secured for the CBC because of prior knowledge of their presence.

Of course, anytime birders are scattered among an area, surprises will be found. The two most surprising birds this year were a Short-eared Owl found in Oakmont and a Baltimore Oriole in O’Hara Township. The Short-eared Owl was originally flushed by a group of field participants in the morning and later photographed by the area leader. This is a Pennsylvania Endangered Species and is the first record of the species on the Pittsburgh count.

The Baltimore Oriole was found by a first-year participant at his feeder in O’Hara Township. The bird was coming to a woodpecker feeder, presumably picking dried raisins from the food blend. The oriole is the perfect example of how a single person interested in birds can contribute to the CBC dataset. Without his participation, the oriole’s presence would not have been known or documented.

A number of waterfowl including Tundra Swan, Lesser Scaup, and Ring-necked Duck, lingering on our area rivers helped to contribute to this year’s high diversity, as did a few lingering passerines including Chipping Sparrow, Fox Sparrow, and Red-winged Blackbird.
Get Ready for Spring at Our Yard & Garden Sale Saturday, May 4

Take advantage of our lowest prices of the season during Audubon Nature Store’s Yard & Garden Sale – May 4 from 9 am to 5 pm. Browse our selection of tools, supplies, and functional decorative items for your yard and garden needs.

With Mother’s Day just around the corner, don’t miss this one-day event, which runs in conjunction with ASWP’s Native Plant Sale.

Maple Products are a sweet subject for our shoppers!

Many of you know that we offer Wagner’s Maple Sugar Camp syrup during Maple Madness, but did you know that we carry Somerset County’s sweet sap year round? Wagner’s 100% pure Pennsylvania maple syrup is available in gallon, half gallon, quart, pint, and half pint sizes in both Grades A and B.

Don’t Forget to Feed the Birds Year-round

Just because winter is coming to an end, it doesn’t mean it’s time to take down the birdfeeders. Give your feathered friends a tasty treat and delight in watching them year-round at your feeder. Stop by Audubon Nature Store to pick up Beechwood Blend, birdseed specially formulated for the birds in our region. The birds will say thank you!

CONGRATULATIONS
Charles Siefert is the lucky winner of Audubon Nature Store’s Holiday Gift Basket.

The Importance of Being a Volunteer

Volunteers provide a vital service to our organization, helping us with everything from office work to native plant cultivation and student field trip assistance. If you’re interested in becoming a volunteer with us, please call (412) 963-6100.

We’re also seeking volunteers for our Volunteer Naturalist program, which runs Mondays from March 18 through April 29. Contact Scott at (412) 963-6100 ext. 20 or sdetwiler@aswp.org for more information. Note: there will be no class on April 1.

Support Audubon Through Commemorative Trees, Benches, or Bricks

A commemorative tree, brick, or bench is a wonderful way to continually preserve the cherished thoughts of individuals you care deeply about, and who also care deeply about Audubon. ASWP offers commemorative trees and benches, in addition to bricks, as options for purchase within our properties at Beechwood Farms Nature Reserve and Succop Conservancy.

At the same time, your commemorative purchase helps ASWP fulfill our mission to connect the people of southwestern Pennsylvania to birds and nature through our programs, projects, and places.

Please contact Chris Kubiak, Development Associate, at ckubiak@aswp.org or (412) 963-6100 to discuss commemorative options.

Audubon Center for Native Plants Spring Sale, May 4 9am-1pm

Stop by Audubon Center for Native Plants on May 4 for our Spring sale! Native plant experts will be on hand to discuss the types of plants that will work best in your backyard.

Native plants attract birds, butterflies, and beneficial insects to your garden. And during our sale, the plants will be offered at the lowest prices of the season!
**MARCH**

**6 Naturalist Led Morning Walk > 9am** Enjoy viewing birds and other wildlife on a hike through the reserve with one of our naturalists. **Free**

**9 Maple Sugaring for Scouts > 10am-Noon** Scouts, Join us on the trail for hands-on look at the history and science of maple sugaring. **Cost:** $7.50 per scout

**10 Audubon Center for Native Plants: Composting Workshop for Families 2 - 4pm** Compost is a highly nutritious fertilizer and soil amendment that adds life to any garden soil. The workshop will highlight various composting methods for the home landscape. Each family will make a worm compost bin complete with worms to take home. Pre-registration required. **Cost per family:** $40 member / $45 nonmember

**13 Naturalist Led Morning Walk > 9am** Enjoy viewing birds and other wildlife on a hike through the reserve with one of our naturalists. **Free**

**14 Fledglings > 10 - 11am** Give your 3-5 year old a head start on a lifetime of loving the outdoors. These naturalist-led programs incorporate stories, activities and a trail walk on seasonally appropriate topics. Parent or caregiver must be present. **Cost:** $4 member / $6 nonmember

**16 Maple Madness > 10am-3pm** Enjoy a naturalist led walk through the history of maple sugaring—after diving into a pancake breakfast. Last seating for pancake brunch is 1:30pm. Reservations required. **Cost:** $6 member / $10 nonmember

**20 Naturalist Led Morning Walk > 9am** Enjoy viewing birds and other wildlife on a hike through the reserve with one of our naturalists. **Free**

**27 Naturalist Led Morning Walk > 9am** Enjoy viewing birds and other wildlife on a hike through the reserve with one of our naturalists. **Free**

**APRIL**

**3 Naturalist Led Morning Walk > 9am** Enjoy viewing birds and other wildlife on a hike through the reserve with one of our naturalists. **Free**

**9 Speaker Series > 7 - 8:30pm** Join us for a presentation on Green Burials by Pete McCullough of Penn Forest Natural Burial Park. **Free**

**10 Naturalist Led Morning Walk > 9am** Enjoy viewing birds and other wildlife on a hike through the reserve with one of our naturalists. **Free**

**11 Fledglings > 10 - 11am** Give your 3-5 year old a head start on a lifetime of loving the outdoors. These naturalist-led programs incorporate stories, activities and a trail walk on seasonally appropriate topics. Parent or caregiver must be present. **Cost:** $4 member / $6 nonmember

**14 Wildflower Walk > 2 - 4pm** See what’s popping up in the woods. We’ll look for spring beauties including, bloodroot, hepatica and others along our trails. **Free**

**17 Naturalist Led Morning Walk > 9am** Enjoy viewing birds and other wildlife on a hike through the reserve with one of our naturalists. **Free**

**20 Birdwatching Hike > 8 -10am** Beechwood is coming alive in Spring! Take a guided walk with one of our naturalists and learn what, and who, is onsite. **Free**

**24 Naturalist Led Morning Walk > 9am** Enjoy viewing birds and other wildlife on a hike through the reserve with one of our naturalists. **Free**

**27 Birdwatching Hike > 8-10am** Beechwood is coming alive in Spring! Take a guided walk with one of our naturalists and learn what, and who, is onsite. **Free**

**28 Audubon Center for Native Plants: Basic Landscaping with Native Plants 2 - 4pm** Wake up your garden with cheerful spring blooming native plants. Learn how to enhance your landscape using native plants, reduce the spread of invasive species, and explore the benefits of these adaptable plants. Bring a picture of your garden space or create a new landscape using design techniques such as sketch, paint and collage to create designs that will bring nature closer to you. **Cost:** $6 member / $10 nonmember

**MAY**

**1 Naturalist Led Morning Walk > 9am** Enjoy viewing birds and other wildlife on a hike through the reserve with one of our naturalists. **Free**

**2 Babes in the Woods > 10 - 11am** Parents and toddlers (2 and under) will delight in using sight, sound, touch, and smell to discover the natural world. These naturalist led programs incorporate seasonally appropriate topics. Parent or caregiver must be present. Strollers/Baby Backpacks welcome. **Cost:** $4 member / $6 nonmember

**4 Birdwatching Hike > 8-10am** Beechwood is coming alive in Spring! Take a guided walk with one of our naturalists and learn what, and who, is onsite. **Free**

**10 Birdwatching Hike > 8-10am** Beechwood is coming alive in Spring! Take a guided walk with one of our naturalists and learn what, and who, is onsite. **Free**

**18 Audubon Center for Native Plants: Spring Sale 9 am - 1 pm** Join us for our Annual Spring Plant Sale, where you’ll receive discounts on all of our nursery propagated native plants, including hard to find favorites. Plant Experts will be available to help answer questions.

**JUNE**

**1 Audubon Center for Native Plants: Rain Harvesting Workshop for Families > 2-4pm** Learn about the environmental benefits, financial savings & water conservation Rain gardens and Rain barrels offer. Each family will make 1 rain barrel OR 1 rain chain. Pre-registration required. **Cost per family:** $40 member / $45 nonmember

**5 Naturalist Led Morning Walk > 9am** Enjoy viewing birds and other wildlife on a hike through the reserve with one of our naturalists. **Free**

**6 Audubon Center for Native Plants: Get Your Garden Ready for Spring > 2-4pm** Join us for tips and low cost techniques to prepare an organic landscape space that will enhance backyard biodiversity and create a chemical free environment where plants can thrive. Come prepared for working outdoors with hand tools. Each participant will learn to make then take home compost tea. **Cost:** $4 member / $6 nonmember

**7 Citizen Science Corps: Firefly Watch Training > 8 - 10pm** Watching fireflies is an annual rite of summer. Now learn how you can help scientists track fireflies around the world by reporting on your favorite nighttime insect from your own backyard. Perfect for families. **Cost:** $6 member / $10 nonmember

**11 Speaker Series > 7-8:30pm** Join us for special presentations that will get you thinking about important environmental issues. **Free**

**12 Naturalist Led Morning Walk > 9am** Enjoy viewing birds and other wildlife on a hike through the reserve with one of our naturalists. **Free**

**13 Fledglings > 10 - 11am** Give your 3-5 year old a head start on a lifetime of loving the outdoors. These naturalist-led programs incorporate stories, activities and a trail walk on seasonally appropriate topics. Parent or caregiver must be present. **Cost:** $4 member / $6 nonmember

**14 Naturalist Led Morning Walk > 9am** Enjoy viewing birds and other wildlife on a hike through the reserve with one of our naturalists. **Free**

Enjoy a naturalist-led walk through the history of maple sugaring—after diving into a Pancake Brunch!
Rain or shine. Last seating for pancake brunch is 1:30 p.m.

Reserve your space online at aswp.org or call (412) 963-6100.
Citizen Science Outreach Program

We have received a generous grant from Dominion foundation that will enable us to bring citizen science to locations throughout our service area. Check our website at aswp.org for dates and times near you. Programs are currently scheduled for:

- Leechburg Public Library
- Crooked Creek Environmental Learning Center
- Saxonburg Area Library
- Butler Area Public Library
- Franklin Center (Beaver)
- Citizen’s Library (Washington)
- Outdoor Classroom (Upper St. Clair)
- Moon Parks and Recreation
- Beaver Memorial Library
- Westmoreland County Conservation District
- Citizen’s Library (Washington)
- Construction Junction

BirdFest Weekend!
Birding Trips, Guest Speakers, and Mothers’ Day Brunch

BirdFest has been such a success that we’ve extended it to include the entire weekend of May 10-12! Visit aswp.org to register for each event! And don’t forget that Saturday we’ll hold Migration Mania at Beechwood, with fun bird activities for the whole family.

New events for 2013 include Friday night’s “Birds and Brew” featuring guest speaker Jim Danzenbaker. Jim is a World Series of Birding team member and the sales manager for the Americas, Kowa Sport Optics. At “Birds and Brew” he’ll provide a dynamic presentation on his birding experiences in some very remote and inhospitable locations, including an expedition to Antarctica. This event will take place at the National Aviary. Make your reservation at aswp.org.

Saturday morning, join Audubon for a birding trip to Sycamore Island. Accessible only by boat, few birders have the chance to experience this location—even though it’s just a short drive from Beechwood.

Saturday evening at Beechwood, author and biologist Derek Lovitch will provide a peek into his book “How to Be a Better Birder.” Derek offers a more effective way to go about identification—he calls it the “Whole Bird and More” approach—that will enable you to identify more birds, more quickly, more of the time.

Sunday morning, Derek Lovitch will accompany a group (reservations required) to Presque Isle in Erie. Shuttle vans will transport individuals, who will gain tips on birding during the trip. While at Presque Isle, they will join experienced birders to learn the results of a Birding Competition that morning—and enjoy viewing some of the birds found during the competition.

Wrapping up the weekend, we’ll hold a Mothers’ Day brunch and birdhouse painting event at Succop Conservancy. Toast mom with a mimosa and dine outdoors in our beautiful pavilion!
Audubon Society of Western Pennsylvania congratulates all of the couples who married at Succop Conservancy this past year. We wish you a lifetime of happiness—and a lifetime of enjoying the great outdoors!

77 Weddings in 2012!
Q: If a nesting bird is startled, how long before the eggs get too cold?

A: Nesting season is upon us. With it, Audubon gets lots of questions about nests that have been disturbed. Someone may discover a nest of eggs with no bird apparently nearby. Or, someone may accidentally startle a bird from a nest. How long can those eggs lie unattended before they get too cold?

Birds have a body temperature of about 104° F. The ideal incubation temperature is generally about 5° below that. However, eggs can withstand much lower temperatures yet remain viable. The fastest a bird can lay eggs is at least 24 hours between eggs. Clutch sizes can be one to 23 eggs, depending on the species. Many birds wait until all the eggs are laid before they begin incubating. This means the egg is going to be closer to the ambient temperature, which can vary quite a bit. The freezing point seems to be the lower limit for viability. But the eggs can remain viable at these low temperatures for several days, even a week or more in some species.

However, once incubation begins, the embryos are more vulnerable--but not necessarily from direct cold. Embryo development slows as the egg cools, ceasing below about 78° F. The eggs can still be warmed and develop; however, there is a trade-off. The cooler the egg gets, the more energy it takes for the parent to rewarm it. Cooling slows the development speed, which prolongs the total incubation time, which also means more of the parent’s energy is spent on the effort. Longer incubation also prolongs the exposure of the nest to threats from predators. So, it’s not so much the cold itself that kills the embryo, but rather the delays that incur as a result.

In the course of their normal day, birds may be off the nest a surprising amount of time. They tend to cycle intervals of incubating and feeding rather than continuously incubate. Birds with larger eggs tend to have longer periods off of the nest. Some birds insulate their nests more than others. As the embryo develops, it begins to generate more of its own heat, extending the time the parent can be away later in the incubation period. However, the strongest variables are ambient temperature and humidity. Birds will vary their time on the nest accordingly to keep the optimal temperature. Indeed, too much warmth is more immediately deadly to a developing embryo than cooling, so they will incubate less on warm days.

All this varies among species, but let’s finish with one example. In songbirds, time on the nest is about 75-80% of the bird’s day. Tree swallows may go through 40 cycles of incubating in a day. Now for some back-of-the-napkin math. Let’s assume the bird stays on the nest most of a 12-hour night, spending most of the “off” time during the day when food is available and ambient temperature is higher. We estimate that the swallow is gone roughly 10 minutes at a time during the day, and is sitting on the eggs about 10 minutes at a time. Some cooling is natural for the egg as long as it is not for an excessive period. So, a startled bird is not really a major threat to cool the eggs, as long as they can get back to the eggs within their normal window for the weather conditions.

Apparently those 10 minutes of “me time” 40 times a day is not a problem for the developing swallow; perhaps human parents will find encouragement in this.

APRIL 13, 2013 • 7:30 PM
MISSION STATEMENT
Connecting the people of southwestern Pennsylvania to birds and nature through our programs, projects, and places.

Become a fan of Audubon Society of Western Pennsylvania on Facebook and receive updates on Beechwood, Succop Conservancy and Todd Nature Reserve.

Printed on 100% recycled paper

NATURE STORE HOURS
Tuesday 9 am - 7 pm
Wednesday - Saturday 9 am - 5 pm
Sunday 1 pm - 5 pm

Trails at all locations are open year-round. 7 days a week, dawn to dusk
(412) 963-6100

DIRECTIONS TO BEECHWOOD (FROM PITTSBURGH)
Take Route 28 north to Route 8 North/Butler exit. Turn right at first traffic light on to Kittanning Road which becomes Dorseyville Road. Travel 4.3 miles and beechwood will be on your left. For additional directions, visit us at aswp.org. Route 28 construction may cause delays. Please allow additional travel time.

DIRECTIONS TO SUCCOP CONSERVANCY (FROM PITTSBURGH)
Take Route 8 North from Pittsburgh or South from Butler and turn on to West Airport Road. Once on West Airport Road, Succop Conservancy’s driveway will be the first road on your left.

DIRECTIONS TO TODD NATURE RESERVE
Take Rt. 28 North to the Butler/Freeport Exit 17. Turn right at Rt. 358 North, and then right at Monroe Road. Travel about 2 miles, and make a right at Kepple Road. Travel 1.5 miles and Todd Nature Reserve will be on your right. Park in the lot and please sign in at the informational kiosk at the cabin. Trail maps are located at the kiosk.

614 Dorseyville Road
Pittsburgh, PA 15238-1618
